About Car Seats and Recalls

It is very important to pay attention to recall notices and for parents to check if their seats are safe to use. Recalls can be issued for any failure to meet Federal Motor Vehicle Safety Standard 213. Most recalls are issued due to reasons related to the crashworthiness of the car seat, but some recalls are for deviations from the standards related to labeling requirements, flammability of the upholstery or padding, or for parts that may come loose and pose a choking hazard. All recalls should be corrected.

Car seats are required to have a label indicating the manufacturer, model information, and date of manufacture. Car seats should not be used if these labels are missing. It is important for people to register their car seat by either mailing the registration card to the manufacturer or by contacting the manufacturer directly.

In cases where the manufacturer of a recalled seat has gone out of business or discontinued replacement programs, parents are advised to discontinue use of the seat. Discarded seats should be taken apart and stripped of upholstery, padding and straps and then destroyed by having them crushed to prevent others from using them.

To report any suspected car seat defects, call the National Highway Traffic Safety Administration Auto Safety Hotline at 888-327-4236 / (TTY): 800-424-9153.

About Older Car Seats and Recalls

The older model list includes recalled seats that are now 10 or more years old. Caregivers will sometimes choose to use older car seats even though it not recommended. Knowing that a particular model is under recall should help to encourage the caregiver to destroy the older seat and obtain a new one.

About the HSRC Recall List

The UNC Highway Safety Research Center (HSRC) car seat recall list is updated as soon as possible after recall notifications are announced and after the information can be verified for completeness and accuracy. Users of this (or any other) recall list should remind parents/caregivers to contact the manufacturer to be certain whether or not a particular car seat is affected by any recalls and how to proceed with repairs or replacement.

Instructions for Using the HSRC Recall List

Find the manufacturer, model name, model number, and date of manufacture on the label of the car seat. Using this information, look to see if the manufacturer, model, and dates of manufacture match any of the listings. The list is alphabetized by manufacturer and model name. When in doubt, contact the manufacturer for clarification.

Car seats manufactured before 1981 were not required to be crash tested and must not be used. Most manufacturers stamp their car seats with an expiration date, typically six to eight years from the date of manufacture, on a label or in the shell of the seat. Many child passenger safety advocates recommend that if no expiration date can be found, car seats older than ten years should be replaced by a new one. Older models are included as a part of this recall list because care givers will sometimes choose to use older car seats even though it goes against the recommendations of most organizations and advocates. Knowing that a particular model is under recall, and if the defect cannot be corrected, should help to encourage the care giver to destroy the older seat and obtain a new one.

Following are recalls and safety notifications that were issued for models where all or most models sold are at least 10 years old as of April 5, 2021. The listing of older models with recalls will only be updated as "newer" models get to be old enough to be moved to the "older" models list.

Programs that make multiple copies of the HSRC recall list, e. g., for use at clinics or permanent checking/fitting stations, should only have to make copies of this older model section when it is revised, regardless of how often the main (newer model) section is revised. Most clinics or permanent checking/fitting stations should only need to print/copy one or two older model lists for reference. Updated versions of this list, as well as the list of models less than 10 years old, are posted on-line at www.buckleupnc.org/car-seat-recall-list.
